Information & Communication Technology L6 AS Theory Scheme of Work

Week	Chapter(s)	Topic
1	1, 6	Introduction/IPSO & Role of ICT/ICT and the professional
2	2,3,4,5,7	It in Business,manufacturing etc
3	2,3,4,5,7	It in Business,manufacturing etc
4	8	Data, Information and knowledge
5	9, 13	Information as a Commodity, Health and Safety
6		Revision/Prepare for Assessment Week
7	14	Introduction to Computer Systems
8		Assessment Week
9	10	Computer Crime and the Law
10	11	Protecting It systems
11	12	Data Protection Legislation
12	15,16	Data Capture/Verification and validation
13		Revision/Prepare for Modules
14		Revision/Prepare for Modules
15		Examination Modules
16	30	User Interfaces
17	28	Output Devices
18	26	Storage Devices
19	21	Categories of Software
20	22	Generic software
21	23	Capabilities of Software
22	27	Security of Data
23	24	Modes or Processing
24	25	Processing Different types of Data
25	20	Systems Software
26	17	Introduction to Databases
27	18	Relational Databases
28	29	Network Environments
29	54	Software Evaluation
30	61	HCI
31	56	DBMS
32	55	Data Modelling
33	55	Data Normalisation
		Project Analysis
