

8th October 2010

Dear Parent/Guardian

PSHE School Nurse talk on Sexually Transmitted Diseases & Safer Sex/
Contraception lesson

Year 11 classes are studying and discussing aspects of sexual health with specialist staff. During the PHSE lesson of October 15th, our School Nurse, Ms Anne Dalton will give a talk to the Year 11 classes on sexually transmitted diseases. I am sure that you appreciate that this is handled with extreme sensitivity. The following lesson after the Half Term break, November 5th, the ideas delivered to pupils will be further developed. Form teachers will be in the room with the boys while the talk is being given.

If for any reason you would prefer your son not to be present during these talks, would you be kind enough to let me know, in writing.

With kind regards

Yours sincerely

J E Turner
Group Tutor Student Development /Head of PSHE
