

8th September 2010

Dear Parents (Personalised to all L6 parents)

To build upon our students' examination success at GCSE level, we have developed a successful target setting process in the Sixth Form. Our aim is to raise students' aspirations and achievements so that they can fulfil their academic potential.

Using this system, we will be able to monitor effectively each student's progress and offer a range of enrichment programmes and mentoring support. We will also be able to keep you regularly informed about your daughter's progress over the next two years.

To begin the target setting process, your daughter has produced her calculated and aspirational grades. The next stage in the process is the introduction of the subject grades from ALIS (The Advanced Level Information System), which gives national average grades.

In order for us to work together successfully in supporting your daughter, we think it is of the utmost importance that you attend the Lower Sixth Information Evening on **Wednesday 22nd September from 7.00pm until 8.30pm** in the Centenary Hall. The evening will give you the opportunity to hear about the target setting process and the careers programme in the Sixth Form. You will also be able to join staff informally for refreshments.

Yours sincerely

Mrs L A Robinson
Headmistress

Mrs M Peppin
Head of Sixth Form
