

10th September 2010

Dear Parents

The Art Department have arranged for your daughter to attend a workshop with leading artist Mike Badger **on Friday 24th September**. The day involves an exploration of the creative process, making site specific sculptures on Crosby Beach and then working with found objects in the art studios in the afternoon. The work produced will form an integral part of the first unit of coursework which is based on ***Contrasts***.

Mike Badger was recently commissioned to produce a public sculpture which is on display at Cavern Walks.

Yours sincerely

Mr M Gill
Director of Art
