

Dear Pop,

I hope that you are keeping yourself safe and well during these uncertain times. I have been watching the news on the television and I understand that we all need to self-isolate to keep ourselves as safe as possible. I know that this is a lonely time for you because you live alone, but I hope that by me ringing you everyday for a chat and writing this letter that it helps brighten up each of your days.

I miss seeing your cheery face and our lovely hugs that we have together. I promise that as soon as this is all over we will have a big party with all of our family and friends.

I have been busy working hard with all of my schoolwork and during my break times I have been in the garden practising my football skills and keeping fit. I don't know if you have seen Joe Wicks on the TV, but he has been doing a daily workout challenge for the nation. You should have a go! it's good fun! Mum tells me that you have been out in your garden. I know that you love your garden and that you will be busy planting your Sweet Peas ready for summer. I tell all of my friends that you are super fit for your age and that you can do almost anything.

When this is all over you can come to our house and we can play football in the garden and I can teach you how to play Fifa on the Xbox.

To help pass the time we have been having games of family Rounders'. My mum keeps on making me laugh because she can't hit the ball. She keeps on jumping when she hits it and she holds the bat with one hand. I bet you can guess who always comes last!!

Well I hope that this letter has made you smile and remind you that we are all thinking of you and that we love you very much.

See you soon Pop

Love Gabriel
