## **1. Purpose**

The widespread ownership of mobile phones among young people requires that Stanfield as a school, teachers, students, and parents take steps to ensure that mobile phones are used responsibly. This Policy is designed to ensure that potential issues involving mobile phones can be clearly identified and addressed, ensuring the benefits that mobile phones provide (such as increased safety) can continue to be enjoyed by our students. This Policy for mobile phones in conjunction with the ICT and Social Media Acceptable Use policy also applies to students on school buses, during school excursions, residential activities and extra-curricular activities.

## **2. Rationale**

- 2.1.** The school recognises that personal communication through mobile technologies is an accepted part of everyday life but that such technologies need to be used well.
- 2.2.** Stanfield accepts that parents give their children mobile phones to protect them from everyday risks involving personal security and safety. We also acknowledge that they are a vital means of communication between the older pupils and their parents in the case of an emergency or when travel plans change. It is acknowledged that providing students with mobile phones gives parents reassurance that they can contact their children if they need to speak to them urgently.
- 2.3.** Pupils are taught through the wider curriculum, PSHE and Relationships and Sex Education, how to stay safe, including staying safe online and the dangers of cyber-bullying.

## **COVID**

During any periods of remote learning junior pupils are encouraged to bring their own devices in order to facilitate the accessing of remote education if in School. Pupils are not permitted to bring mobile phones and are to bring tablets or other equivalent devices.

## **3. Responsibility**

It is the responsibility of students who bring mobile phones to School, for the reasons outlined in point 5, to abide by the guidelines outlined in this document. Parents should be aware if their child takes a mobile to School.

## **4. Access to mobile phones within school during the school day**

### **4.1. All pupils**

Mobile phones should be handed into the class teacher upon arrival to school and then picked up from the teacher at the end of the school day. Students should not be in possession of a mobile phone during the school day. No pupils should have their phone with them during the school day. The phones will be stored securely during the day.

## **5. Other Acceptable Uses**

Pupils will be given their phones as they travel on the School buses where there is no chaperone and no tracking device on the bus, however pupils who have phones on the buses should have an agreement signed between the Headmistress and the pupil where it has been agreed that the phone will not have internet access and may be used for calls / texts only in an emergency.

Exceptions may be permitted only in special circumstances if the parent/carer specifically requests it or if a child needs to make contact with one of their parents. Such requests will be handled on a case-by-case basis and should be directed to the class teacher in the first instance, who will ensure the pupil has their phone at a particular time to call or will direct them to the school office to phone at the agreed time. Parents are reminded that in cases of emergency, the School Reception remains a vital and appropriate point of contact and can ensure your child is reached quickly and assisted in any appropriate way.

## **6. Unacceptable Uses**

- 6.1. Unless express permission is granted, mobile phones belonging to pupils, should not be used to make calls, send or post messages, surf the internet, take photos or use any other application during the school day. Students' phones should be handed in and pupils should only use their mobile phones before or after school and not on the school premises.
- 6.2. Students' are not allowed phones on their person during co-curricular activities, trips or residential.
- 6.3. It is forbidden for students to use their mobile phones to take videos and pictures of acts to denigrate and humiliate any member of the School Community, and/or to send the pictures to other students or upload it to a website for public viewing. This includes using mobile phones to photograph or film any member of the School Community without his/her consent. Using mobile phones to bully and threaten other members of the School Community is unacceptable and will not be tolerated. It can be a criminal offence to use a mobile phone to menace, harass or offend another person and almost all calls, text messages and emails can be traced. Students using mobile phones to bully any member of the School Community will face disciplinary action and it may be appropriate for the School to consider involving the police.
- 6.4. Mobile phones are not to be used in any situation that may cause embarrassment or discomfort to fellow students, staff or visitors to the School. Students must not use photo or video capability on mobile phones which could bring the School's name into disrepute.
- 6.5. Mobile phones must not be taken into any examination situation. Any student found to be in possession of a mobile phone during an examination could be prevented from completing that and other public examinations as a result.

## **7. Theft or Damage**

- 7.1. Students should mark their mobile phones clearly with their names using an indelible ink.

- 7.2. Students should not have phones on their person during the school day and staff should ensure students' phones are kept securely, to reduce the risk of theft during school hours.
- 7.3. Mobile phones that are found in the School and whose owner cannot be located should be handed in to Reception.
- 7.4. The School accepts no responsibility for replacing lost, stolen or damaged mobile phones.
- 7.5. The School accepts no responsibility for students who lose or have their mobile phones stolen or damaged travelling to and from School, during School trips, on residential activities and in extra-curricular time.
- 7.6. It is strongly advised that students use passwords/pin numbers to ensure that unauthorised phone calls cannot be made on their phones (e.g. by other students, or if stolen). Students must keep their password/pin numbers confidential. Mobile phones and/or passwords may not be shared.

## **8. Escalating sanctions**

Breaches of the Mobile Phone Policy will lead to confiscation of the mobile phone by the member of staff. The confiscated item will be taken immediately to the reception/main school office by the member of staff for safe keeping. This will be recorded by the school office.

### **8.1. 1<sup>st</sup> Confiscation:**

Parents will be notified that their son/daughter has had their mobile phone confiscated via an email. The confiscated item will be returned to the student at the end of the day. The student will be given a school detention.

### **8.2. 2<sup>nd</sup> Confiscation:**

Parents will be notified that their son/daughter has had their mobile phone confiscated for the second time via an email. The confiscated item will need to be collected by the student at the end of school on the following day. The student will be given a school detention. In the event that the student needs to call home, he/she can either ask to use the phone at reception.

### **8.3 3<sup>rd</sup> Confiscation:**

Parents will be notified that their son/daughter has had their mobile phone confiscated for the third time via an email. The confiscated item will need to be collected by a parent at their earliest convenience. The student will be given a school detention and will be required to sign a mobile phone contract. The mobile phone contract (see appendix) stipulates that the student will leave their phone at home or hand it in daily to the class teacher. Failure to do this, and then to subsequently be caught using it, will result in more severe sanctions.

Sanctions in cases where it is proven that there has also been an online safety issue will be in line with those outlined in the School's ICT and Social Media Acceptable Use Policy and Behaviour Policy.

## **Staff**

Many staff use their mobile phone as an integral part of their working day. Teaching staff may communicate with parents or staff at other schools. Caretakers and the Nurse are on call throughout the day and use their mobile phones for immediate contact with colleagues who may not be able to speak to them directly. However, we must model the behaviour which we expect of our pupils. To that end, staff use of mobile phones must be discreet and, wherever possible, conversations must be conducted in an office, an empty classroom or the Common Room.

Staff must never use their mobile phones as a means of communication or for browsing the internet during lesson time. However, mobile phone use during lesson time is acceptable in the context, and as an integral part of the lesson.

Staff must never use their mobile phone to photograph students. If photographs are required, a school camera / school iPad should be used or, preferably, photographs should be taken by a member of the marketing department.
